The R Project for Statistical Computing

Getting Started

R is a free software environment for statistical computing and graphics. It compiles and runs on a wide variety of UNIX platforms, Windows and MacOS. To **download R (https://cran.r-project.org/mirrors.html)**, please choose your preferred CRAN mirror (https://cran.r-project.org/mirrors.html).

If you have questions about R like how to download and install the software, or what the license terms are, please read our answers to frequently asked questions (https://cran.R-project.org/faqs.html) before you send an email.
